WOOD-MIZER'S LT15 SAWMILL AVAILABLE WITH NEW POWER FEED AND LOAD ASSIST KIT

New Sawmill Options Make Sawing and Transporting Compact Mill Easier

INDIANAPOLIS, IN – Wood-Mizer Products Incorporated, the world's leading sawmill manufacturer, is launching their popular LT15 sawmill with an optional Power Feed control. This option converts the standard, manual-crank, feed system into a powered feed unit.

The power feed option features:

- 12 Volt Powered Feed
- Up to 90 board feet per minute; forward and reverse
- Easy, bolt-on installation

The optional Power Feed is available when ordering a new LT15 but can also be retrofitted for existing LT15 mills (June 2004 and newer).

In addition, the LT15 is also available with a Load Assist Kit that provides the tools needed to transport the LT15 using an existing Multipurpose Tilt Bed trailer. The kit contains custom bolt-on brackets, hardware, dolly wheels and a strap winch.

Dave Mann, VP of the Sawmill Division for Wood-Mizer Products, says the new LT15 options were implemented to continually increase customer satisfaction. "With the new powered feed option, sawing on the LT15 is easier than ever," explained Dave Mann. "The power feed reduces the labor involved in moving the head through the cut and is as easy as flipping a switch."

A video of both the power feed and load assist kit is available online at www.woodmizer.com. Orders are currently being taken by calling 1.800.553.0182.

The LT15 sawmill was first introduced by Wood-Mizer in 1997. It has evolved over the years and received various upgrades and options. In 2007, Wood-Mizer announced the compact mill would be available with a 25HP gas engine with electric start.

Wood-Mizer is the leading manufacturer of portable band sawmills and offers an extensive line of mills covering a wide range of cutting capabilities. The company has sold more than 40,000 sawmills worldwide, spanning more than 110 countries. Wood-Mizer is the only portable sawmill manufacturer to also produce blades. For more information about Wood-Mizer Products call 1.800.553.0182 or visit www.woodmizer.com.
