## CBN BLADE SHARPENING EQUIPMENT FROM WOOD-MIZER "Shop Series" Equipment Now Available and "Pro Series" Coming Soon

INDIANAPOLIS, IN – Wood-Mizer Products Incorporated, the world's leading sawmill manufacturer, is responding to the industry need for advanced blade sharpening equipment. The company is now offering sawyers the ability to maintain their own blades with CBN Super Abrasive Technology. Known as the **"Shop Series"**, the Blade Maintenance Kit includes the new **CBN sharpener and a manual tooth setter**.

The "Shop Series" CBN Sharpener/Setter Maintenance Kit includes:

- Profile Sharpener with CBN Super Abrasive Technology
- Manual Tooth Setter
- CBN Super Abrasive Grinding Wheel of your choice
- 5 Gallons of Sharpening Oil

Wood-Mizer's profile sharpener with CBN Super Abrasive Technology was developed for the purpose of providing customers an easy, efficient, cost effective, and safe way to sharpen blades. The unit uses pre-formed grinding wheels that do not require shaping or dressing. These pre-formed wheels ensure consistent tooth geometry, provide a superior cutting edge, and restore gullet integrity. A variety of profiles are available.

**Wood-Mizer's CBN Sharpener  
with Super Abrasive Technology**

"Wood-Mizer is acutely aware of the importance sawyers place on making money and saving money. Our sharpening and setting equipment is a great and inexpensive way to maintain sawmill blades," comments Randy Panko, Wood-Mizer Blades Division Manger.

To preview Wood-Mizer CBN sharpener in action, a video is available online at [www.woodmizer.com](http://www.woodmizer.com). Orders are currently being taken by calling 1.800.525.8100.

In spring 2008, Wood-Mizer will be releasing a **"Pro Series" Sharpener** that is industrial-grade and designed for high-production sawmill operations. When introduced, the unit will feature an intuitive user interface and other automated aspects. **Currently a "Pro Series" Computerized Tooth Setter is available.**

CBN BLADE SHARPENING EQUIPMENT FROM WOOD-MIZER

CONTINUED

Wood-Mizer will continue to offer a vitrified sharpener for sawyers who have a smaller volume of blades to sharpen. This unit comes with two grinding wheels, dressing stone, coolant, and four cam kits with cam wrench and hook angle template.

For those not interested in sharpening their own blades, Wood-Mizer will continue to offer their exclusive **ReSharp** service where blades are sharpened on the same equipment originally used to manufacture the blades and then shipped back to the customer. There are five ReSharp locations in the United States. For more information on ReSharp, call 1.800.244.4600.

Wood-Mizer is the leading manufacturer of portable band sawmills and offers an extensive line of mills covering a wide range of cutting capabilities. The company has sold more than 40,000 sawmills worldwide, spanning more than 110 countries. Wood-Mizer is the only portable sawmill manufacturer to also produce blades. For more information about Wood-Mizer Products call 1.800.553.0182 or visit [www.woodmizer.com](http://www.woodmizer.com).
